### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis DeJuidice on January 9, 2006.

The application has been amended as follows:

Claim 14 has been canceled.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art neither discloses nor makes obvious a suction and discharge valve arrangement as set forth in claim 11 having a suction orifice with a transition portion which is incorporated into the valve plate, the transition portion having a cross section configured to impart to the gas flow a change of direction which allows the whole cross-sectional area of the suction orifice to be fully used for gas flow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
